Plunge Pools

Plunge pools aren't just for small backyards. Increasingly, they're a deliberate choice for people who want their pool to be a place to cool off, unwind, connect with friends and enjoy the water, without asking it to take over the entire backyard. From compact courtyards to expansive outdoor spaces, a beautifully designed plunge pool can deliver everything you want from pool ownership while leaving more room for landscaping, entertaining, and the way you want to live outdoors.

All dimensions are external for transport and access purposes. For nominal measurements, refer to engineering drawings.

MODEL	EXTERNAL LENGTH	EXTERNAL WIDTH	DEPTH	VOLUME
6.2 Plunge	6.2m	3.4m	1.42m - 1.7m	23,000L
5.0 Plunge	5.0m	3.4m	1.42m - 1.65m	17,500L

ROYAL BLUE

IVORY SHIMMER

Colour samples are a guide only. These colours are a digital representation and final colour may vary depending on the pool surrounds and the unique manufacturing process.

INSTALL OPTIONS

3 ways to install a Compass Pool in your backyard

1

Fully in-ground:
Most common and cost effective for standard flat sites

2

Partially above ground:
to meet the height of an existing deck, retaining wall or other design feature

3

Fully above-ground:
for sloping sites and where the deck/patio area is above natural ground level
